## ULTIMATE HEADERS ANNOUNCES NEW LONG TUBE HEADERS FOR GM LT-1/LT-4 GEN 1 & 2 CAMAROS

**Berea, Ohio (May 9, 2016)** Ultimate Headers announces a new, long tube Stainless Steel header designed specifically for Gen 1 (67-69) and Gen 2 (70-81) Camaros with GM LT-1 or LT-4 engine conversions.

The long tube design is one of the first offered for the popular GM LT-1 or LT-4 engine transplant into the Gen 1 & 2 Camaros. The CAD designed, patented headers are a created to meet the performance and appearance requirements of Camaro owners.

The new Ultimate Headers Gen 1 & 2 Camaro LT-1/LT-4 long tube headers includes the unique features of all Ultimate Headers products – strong and stylish cast 316L grade Stainless Steel flanges, investment cast elbows for tight clearances – to deliver performance in a very compact package.
